MEMORANDUM FOR: MR. HOUSTON

SUBJECT : Income Tax Information

1. In accordance with your request today, I am inclosing herewith a copy of the income tax instruction drafted for general dissemination in the field. The final draft dated 19 December bears your initials. It was first decided to release this in "Notice" form, but since it applied also to Commo and the DD/I, COA-DD/P felt it should originate from the DD/A complex. This decision was reached around 5 January. In view of the lack of time, it was also decided to issue it as a cable. However, the Cable Secretariat pointed out that transmission as a book message would involve about 35,000 word groups, and it was then decided within the DD/P complex to pouch the information out to the various area divisions. A paragraph for the information of the area divisions was drafted to accompany the text. This is also attached for your information. The same draft was provided DD/I and AD/Communications.

2. My file does not disclose any evidence of action ultimately taken by the DD/P line divisions or by Communications or DD/I.

3. I would appreciate your returning the final draft to me for retention. The other papers are duplicates.
